0-WEB.ru

NET developer who wants to build a Web application using ASP.NET. Benefits is a practical guide for getting started with ASP.NET, providing recommendations, advice, examples, and code snippets. You can think of the documentation as a reference manual, and the code samples as the "how-to" guide. If you're a veteran ASP.NET developer, you may find some of the .NET Framework 2.0 features provided in .NET Framework 3.5. The .NET Framework 2.0 version of the product is actually referred to as .NET Framework 1.1. In general, the .NET Framework 3.5 should be much more user-friendly and easier to use. Comparing ASP.NET 4.0 with ASP.NET 3.5 When ASP.NET 3.5 was introduced, the .NET Framework 2.0 was already out, and the product was in a "release candidate" status. While ASP.NET 3.5 is based on the .NET Framework 2.0, it adds numerous new features, including access to .NET Framework 3.0 and 3.5 features and, for some applications, support for dynamic languages. In addition, ASP.NET 3.5 includes several advanced features, such as configuration of the page-layout engine, add-ons that help reduce the code you write, and .NET application components for communicating with a server (including .NET Remoting, WCF, and .NET event-driven programming). Several new code-behind page templates were introduced. Finally, the .NET Framework 3.5 provides easy, live code-compile-run development capabilities. You can test your Web pages in a browser without having to recompile the pages. Adoption and Versions ASP.NET is no longer the "youngest" .NET Framework. In fact, it was first released as an .NET Framework component on April 28, 2001, the same day as the .NET Framework 3.0. ASP.NET was released as part of .NET Framework 3.5 on October 29, 2004. To become more familiar with the different versions of .NET, you can refer to Table 2.1. Table 2.1 ASP.NET Framework versions ASP.NET Framework version Description 3.0 Early version 3.5 Current version ASP.NET 2.0 (RTM) Initial release; new features added in previous version 3.5 ASP.NET 3 82157476af
