About This Content

The PA-28-181 Archer III is a four-seater, piston-engine aircraft equipped with a fixed tricycle landing gear, 180hp four-cylinder engine and fixed-pitch propeller. Certified in the mid-1990s, the Archer III is one of the most recent PA-28 variants to be built, reflected in its streamlined cowling and cockpit overhead panel controls. Capable of cruising at 118 knots and with a range of nearly 500 miles, it is an ideal aircraft for touring and flight training.

The Archer III is flown all around the world and in addition to our UK research aircraft, G- CIFY, the product will feature liveries from the USA, Canada, France, Australia and Germany.

Model

- Accurately modelled PA-28-181 Archer III, built using real-world aircraft plans and comprehensive photography of the real aircraft

- Numerous animations including passenger door, baggage door, cockpit window and sun visors

- Ground equipment including chocks and tie-downs

- HD textures are used to produce the highest possible texture clarity

- Bump and specular mapping used throughout the aircraft to produce a truly 3D feel

Cockpit

- A truly 3D virtual cockpit right down to accurately modelled seat belts and screw heads - every instrument is constructed fully in 3D with smooth animations

- Cockpit textures feature wear and tear based on reference photos taken in the real aircraft to produce an authentic environment

- Overhead panel controls

- Interactive engine start checklist

- Interactive checklists for every stage of flight

- Panel state system which will automatically save the panel state whenever a flight is saved and reload the panel state whenever that flight is loaded

- Aircraft configuration system that will allow you to choose between 'cold & dark' or 'ready for take-off'

Aircraft systems

- Custom-coded fuel system including the option to have automatic switching of the fuel tanks for use on those long distance cross-country flights

- Custom-coded electrical system with functional circuit breakers, avionics power circuit and emergency bus controls

- Functioning carburettor and primer controls

- Failures including spark plug fouling, limited battery life, vapour lock and more

- Refill menu for quick and easy refilling of fuel and oil, and recharging of the battery

Liveries

The Archer III will be supplied with ten liveries from the UK, USA, Canada, France, Australia and Germany:

- G-CIFY (UK)

- G-CCHL (UK)

- N6092U (USA)

- D-EFVC (Germany)

- PH-AED (Netherlands)

- C-GUXL (Canada)

- HB-PPN (Switzerland)

- EC-JQO (Spain)

- VH-PPR (Australia)

- F-GNCH (France)

Other features

- Realistic and accurate flight dynamics based on real-world performance and handling data, and input from PA-28 pilots

- Authentic sound set

- Custom sounds for switches, doors and more

- Comprehensive manual with panel guide and performance data

- PSD Paint Kit included so you can create your own paint schemes

Title: FSX Steam Edition: Piper PA-28-181 Archer III Add-On
Genre: Simulation
Developer:
Just Flight
Publisher:
Dovetail Games - Flight
Release Date: 5 Mar, 2019

 a09c17d780

English

Best of Best. Very Detailed Simulator! Analogue, Digital Instrument, and readout all functions! Beautiful Graphics! GPS, VOR, ILS, NDB, and more! Accurate and Real Flight MODELING! High End Light Plane Simulator Like A2A Cessna 172!
